

What if your next differentiator is a cohort that learns to find important problems?

A pilot-ready program connecting innovation thinking, research quality, invention awareness and responsible AI with visible participant-owned outputs

Innovation Thinking

Find and frame problems worth solving.

Research Excellence

Build stronger questions, contribution and evidence.

Patent Thinking

Recognise novelty, prior art and invention potential.

THE LOW-RISK START

**Choose one cohort.
Define one measurable capability. Run the pilot.
Review the evidence.**

Leadership sees participant outputs, promising research or IP directions, owners and next milestones before deciding whether and how to continue.

30+ publications 25+ filed patents 7 granted
