

STUDENT AND EARLY-CAREER CAPABILITY PROGRAM

The Modern-Day Professional

An applied capability lab for employability, innovation confidence, responsible AI judgement and industry relevance.

Final-Year Students, Postgraduates, Doctoral Scholars and Early-Career Talent

Dr Amar Banerjee

Innovation Leader • Researcher • Facilitator

amarbanerjee23@gmail.com • [linkedin.com/in/amarbanerjee23](https://www.linkedin.com/in/amarbanerjee23)

Translate academic work into professional value.

Participants connect their knowledge with problem-finding, evidence, communication, ethical judgement and inventive problem-solving, then build a credible professional story and action sprint.

OUTCOME-LED • CONTEXT-SPECIFIC • ACTION-READY

WHY THIS MATTERS

Tool familiarity is useful, but employers and partners look for judgement, contribution and adaptability.

Students can complete courses and projects yet struggle to explain why a problem matters, what they contributed, how they made decisions and how their work creates value.

THE SHIFT

From credentials and tools to an evidence-based capability portfolio.

Participants learn to recognise relevant problems, frame contribution, use AI responsibly, communicate evidence and build a visible next-step plan.

WHAT LEADERSHIP SEES

Employer-ready narratives, opportunity maps, applied problem-solving outputs and a 60-day readiness sprint that placement and faculty teams can review.

VISIBLE OUTCOMES

01

T-shaped capability and opportunity map

02

Employer-ready professional story

03

Inventive solution developed through TRIZ

04

60-day learning and collaboration sprint

A practical bridge from campus to contribution

One day | Interactive bootcamp

The program combines professional positioning, problem discovery, evidence-based story-telling, responsible AI judgement, inventive thinking and action planning.

A structured path from insight to action.

The flow helps participants see themselves as adaptable problem-solvers rather than passive applicants.

01

The changing professional

Understand AI, ambiguity and the combination of human and digital strengths.

02

Find problems worth solving

Connect trends, stakeholder needs and personal capability.

03

Tell a story that travels

Present evidence, contribution, learning and impact with clarity.

04

Invent and evaluate

Use TRIZ and structured thinking to develop differentiated solutions.

05

Stress-test the idea

Use reverse brainstorming, risk awareness and an IP lens.

06

Build the next sprint

Create an employer-relevant pitch and a 60-day growth plan.

INCLUDED

**Practical tools,
not passive at-
tendance.**

Capability workbook, opportunity map, professional story template, responsible AI judgement prompts, inventive problem-solving tools, pitch structure, 60-day sprint canvas and participation certificate.

WHO SHOULD PARTICIPATE

Final-year undergraduate and postgraduate students, doctoral scholars, research associates, early-career faculty, placement cohorts and interdisciplinary student innovation teams.

Research depth, leadership context and practical facilitation.

Dr Amar Banerjee

INNOVATION LEADER • RESEARCHER • FACILITATOR

Dr Amar Banerjee combines enterprise technology leadership, research, patents, teaching and facilitation to make complex professional and innovation concepts practical for non-specialist audiences.

WHY THIS FACILITATION MODEL WORKS

- Context is shaped around a real institutional or organisational challenge.
- Participants create visible outputs and decisions during the engagement.
- Complex innovation ideas are translated into practical, usable tools.
- Every program ends with a continuation path, owners and next steps.

ENGAGEMENT PATHWAY

01

Clarify the priority

Audience, context, evidence, constraints and desired outcome.

02

Shape the experience

Select the right modules, format, examples and participant outputs.

03

Facilitate and continue

Produce action-ready work and a 30, 60 or 90-day path.

START WITH ONE REAL CHALLENGE

Create a student cohort that can connect knowledge, judgement and evidence with real professional value.

The first conversation focuses on whether there is a credible path to value. Scope and investment follow the agreed outcome.
